travel expenses)

Software £60
(plus VAT)

Site visit £350
(plus VAT and
travel expenses)

These databases are written in Microsoft Access and require a copy of Access on each computer running the database. They are ready to run on a network, and the licence fee includes unlimited users on a single site network. This includes the software on CD with installation instructions and a user guide, plus email support for three months. Optionally the databases can be installed and set up for you by one of our specialists, and then demonstrated to your users.

All prices are correct at time of publication but are subject to change. Latest prices can be found on our website.

database price list

August 2010

The advertisement is contained within a blue border. The top half is split into two panels. The left panel features a hand with fingers spread, with the text 'The Bradstow School' at the top, 'Behaviour Support Database' in large blue letters, 'Microsoft Access version' below it, and 'DJThompson&Associates partnering schools and the third sector' at the bottom. The right panel shows a woman in a red top sitting on the floor with a child on her lap, with the text 'software for advocacy organisations' at the top, 'DJThompson&Associates partnering schools and the third sector' at the bottom, and 'learning achievements database' in red and green letters below. The bottom half of the advertisement features the text 'learning achievements database' in red and green, followed by 'helps set academic targets and monitor reading age for young people whose needs are special' in black, and 'DJThompson&Associates' at the bottom right, all set against a background of many hands raised.
